THE FUTURE OF **GIFTS & BAGS 2021**

SUSTAINABLE SOLUTIONS FOR A NEW WORLD

Barron is Africa's largest and market leading supplier of imprintable Apparel, Promotional Gifts and Display Items.

We're the **BRAND-ABLE™** Solutions Business, offering a wide variety of canvasses and solutions that support and build brands.

We are inspired by innovation and creativity, and use that inspiration to make memorable products.

We are driven by a strong set of core values, we conduct ourselves with the highest ethical standards, and treat all our team members and partners with the respect they deserve, creating an environment where people can contribute, innovate and excel.

PAD PRINT

This application is done using a silicone pad. It functions as a transfer vehicle, picking up ink from the printing plate and pressing it directly onto the product.

SCREEN PRINT

Screen printing is a printing technique whereby a mesh screen is used to transfer ink onto a substrate. This is the most common method of imprinting on promotional items and apparel.

EMBROIDERY

Embroidery is stitched with a computerised embroidery machine using patterns digitised with embroidery software.

DIRECT TO DIGITAL

Digital printing is a method whereby the image is printed directly onto the product. This application provides you with a full colour printing option.

CO² LASER

This method is achieved by burning the top layer of the substrate with a thin laser beam that cuts through the product creating a lasting detailed logo.

DEBOSS

This process involves creating a die in the shape of a logo that is pressed into the surface creating a permanent sunken design.

DIGITAL STICKER

Digitally printed directly onto a vinyl adhesive substrate that can be affixed to a product. This application provides you with a full colour printing option.

DOME

Digitally printed directly onto a vinyl adhesive substrate that can be cut into a variety of shapes and sizes. The stickers are then coated with a polyurethane to give a dome-like appearance creating a 3D effect.

YAG LASER

This process is achieved by a solid-state laser that engraves the logo from metal surfaces, giving you a detailed subtle logo.

SUBLIMATE

Dye Sublimation is digitally printed on a coated paper and then transferred to the substrate.

BXD

It is the evolution of embroidery that encompasses the Vibrancy, Clarity and High Definition of print, all encapsulated in one single embellishment.

BRANDING OPTIONS

Because we take pride in our brand, we take pride in yours. Our dedication to high quality and ever-expanding embroidery and printing solutions guarantee that we have the right solution for your brand. No matter the product, we can brand it.

STOP **PLASTIC POLLUTING THE OCEAN**

The fabric used in the manufacturing process of these items is made of recycled plastic (RPET). Like this, the emission of plastic residues to our planet and the consumption of energy is drastically reduced, resulting in a much more eco-friendly process.
